

**A guide to**

---

# **Accounts**

# Providing a comprehensive service

## It's our job not just to crunch numbers but to work out where a business can maximise its growth.

In the majority of cases, we will prepare your statutory annual accounts to assist the directors in fulfilling their obligations to report on the financial position of the business. Whether or not you prepare your own financial statements, our experienced staff will make sure your annual accounts comply with all relevant legislation, including the Companies Act and applicable accounting standards.

## Management Accounts

We will provide you with periodic management accounts. These can be monthly or quarterly and we can also interpret these figures for you, highlighting the key performance indicators.

We will also advise you on your businesses strengths and weaknesses and what you can do to make your business stronger to allow you to develop the business as you have planned. Our experienced people will become an integral part of your team. Whether your business is a limited company, a limited liability partnership, a sole trader or a partnership, the team will provide you with your management accounts in a format relevant to your business requirements, to agreed timescales.

Our accounts team can service companies of any size and with books maintained in any format. We'd be pleased to hear from you.
